1. Overview of Operating Results and Financial Position

(1) Overview of operating results

Operating results for fiscal year ended March 31, 2026 (FY2025)

In FY2025, the Japanese economy continued its gradual recovery, given the upturn in consumer spending and improvement in corporate profits. It is expected that the improvement in employment and personal income will support the gradual recovery in the economy, however, trends in raw material and energy prices and other matters due to the situation in the Middle East require close monitoring. In addition, close attention is required to the fluctuations in financial and capital markets, ongoing developments surrounding US trade policy and others.

In the domestic construction market, although there are concerns about a decline in companies' capital investments mainly due to soaring construction material prices and exchange rate fluctuations, the environment for orders is expected to remain firm for the time being, backed by steady orders for private-sector construction and public works projects.

Under such circumstances, the Obayashi Group's consolidated net sales amounted to 2,586.2 billion yen, a decrease of 4.5 billion yen (0.2%) from the previous fiscal year, reflecting a decline in the domestic building construction business which benefited from progress with large-scale projects, despite steady progress with projects in hand in the overseas building construction and in the domestic and overseas civil engineering businesses. In terms of profit and loss, operating profit amounted to 194.6 billion yen, an increase of 52.2 billion yen (36.6%) from the previous fiscal year. Ordinary profit amounted to 204.1 billion yen, an increase of 51.9 billion yen (34.1%) year-on-year. These were mainly due to factors including additional claim approvals and change orders, greater contribution from highly profitable construction projects in the domestic building construction business, steady progress with projects in hand in the overseas civil engineering business, and the sale of developed properties in the real estate business. Profit attributable to owners of parent amounted to 173.7 billion yen, an increase of 28.4 billion yen (19.5%) year-on-year.

Operating results by business segment for FY2025 were as follows:

Construction business

Consolidated orders received for the construction business amounted to 2,849.8 billion yen, a decrease of 312.0 billion yen (9.9%) from the previous fiscal year, due to a decline in the domestic building construction and civil engineering, and in the overseas civil engineering compared to the previous fiscal year which benefited from new orders for large-scale projects, and new orders being strategically received in alignment with the current construction capacity in the domestic building construction and civil engineering, despite an increase in new orders for large-scale projects in the overseas building construction. More specifically, orders received for domestic building construction were 1,200.9 billion yen; for overseas building construction, 788.1 billion yen; for domestic civil engineering, 444.2 billion yen; and for overseas civil engineering, 416.5 billion yen.

Non-consolidated orders received amounted to 1,604.8 billion yen, a decrease of 415.2 billion yen (20.6%) from the previous fiscal year. More specifically, orders received for building construction projects amounted to 1,164.9 billion yen, a decrease of 351.3 billion yen (23.2%) year-on-year; and for civil engineering projects, 439.9 billion yen, a decrease of 63.8 billion yen (12.7%).

Consolidated net sales for the construction business amounted to 2,409.3 billion yen, a decrease of 58.3 billion yen (2.4%) from the previous fiscal year, mainly reflecting a decline in the domestic building construction business which benefited from progress with large-scale projects, despite steady progress with projects in hand in the overseas building construction and in the domestic and overseas civil engineering. More specifically, net sales for domestic building construction were 1,138.7 billion yen; for overseas building construction, 507.9 billion yen; for domestic civil engineering, 426.6 billion yen; and for overseas civil engineering, 336.0 billion yen.

Operating profit amounted to 171.7 billion yen, an increase of 47.6 billion yen (38.3%) from the previous fiscal year, mainly due to factors including additional claim approvals and change orders, greater contribution from highly profitable construction projects in the domestic building construction, and steady progress with projects in hand in the overseas civil engineering.

Non-consolidated net sales amounted to 1,474.0 billion yen, a decrease of 162.3 billion yen (9.9%) from the previous fiscal year. More specifically, building construction sales amounted to 1,104.2 billion yen, a decrease of 193.4 billion yen (14.9%) year-on-year and civil engineering sales, 369.7 billion yen, an increase of 31.0 billion yen (9.2%) year-on-year.

Real estate business

Net sales from the real estate business amounted to 106.7 billion yen, an increase of 34.0 billion yen (46.9%) from the previous fiscal year, and operating profit amounted to 19.9 billion yen, an increase of 3.9 billion yen (24.3%) year-on-year mainly due to the sale of developed properties.

Other businesses

Net sales from other businesses amounted to 70.0 billion yen, an increase of 19.7 billion yen (39.4%) from the previous fiscal year, and operating profit amounted to 2.9 billion yen, an increase of 0.6 billion yen (31.4%) year-on-year.

<Consolidated net sales and operating profit by segment>

(Yen in millions)

Segment	Construction Business					Real Estate Business	Other Businesses	Total
	Domestic Building Construction	Overseas Building Construction	Domestic Civil Engineering	Overseas Civil Engineering	Total Construction Business			
Net Sales	1,138,762	507,992	426,623	336,000	2,409,378	106,798	70,082	2,586,258
Operating Profit	104,088	11,999	40,925	14,769	171,782	19,978	2,917	194,678

Outlook for consolidated performance for FY2026

The outlook for consolidated performance in FY2026 is as follows: 3,100.0 billion yen in orders received (including 140.0 billion yen from the real estate and other businesses), 2,945.0 billion yen in net sales (including 165.0 billion yen from the real estate and other businesses), 180.0 billion yen in operating profit, 183.0 billion yen in ordinary profit, and 157.0 billion yen in profit attributable to owners of parent.

(2) Overview of consolidated financial position

Total assets increased by 100.6 billion yen (3.3%) compared with the balance at the end of the previous fiscal year, amounting to 3,143.4 billion yen as of March 31, 2026. This was mainly due to increases in cash and deposits, and in buildings, structures, and land by the purchase of real estate for business use despite a decrease in trade receivables related to construction contracts (the sum of notes receivable, accounts receivable from completed construction contracts and other and electronically recorded monetary claims).

Total liabilities decreased by 5.5 billion yen (0.3%) compared with the balance at the end of the previous fiscal year, amounting to 1,826.9 billion yen as of March 31, 2026. This was mainly due to decreases in trade payables related to construction costs (the sum of notes payable, accounts payable for construction contracts and other and electronically recorded obligations) and in interest-bearing debt such as short-term borrowings despite an increase in advances received on construction contracts in progress. The balance of interest-bearing debt decreased by 18.6 billion yen (5.2%) compared with the balance at the end of the previous fiscal year, amounting to 344.0 billion yen as of March 31, 2026.

Total net assets increased by 106.2 billion yen (8.8%) compared with the balance at the end of the previous fiscal year, amounting to 1,316.4 billion yen as of March 31, 2026. This was mainly due to an increase in retained earnings from the recognition of profit attributable to owners of parent.

As a result, the equity ratio as of March 31, 2026, was 40.0%, up 1.9 percentage points from the end of the previous fiscal year.

(3) Overview of consolidated cash flows

During FY2025, net cash provided by operating activities amounted to 252.9 billion yen, primarily due to a continued steady balance of the domestic construction business. (Net cash provided by operating activities was 84.1 billion yen in the previous fiscal year.) Net cash used in investing activities amounted to 84.3 billion yen, primarily due to the purchase of real estate for business use and the acquisition of shares of GCON, LLC and its affiliated companies, despite proceeds from the sale of cross-shareholdings. (Net cash provided by investing activities was 10.0 billion yen in the previous fiscal year.) Net cash used in financing activities amounted to 141.4 billion yen, primarily due to the purchase of treasury shares and the payment of dividends. (Net cash used in financing activities was 50.4 billion yen in the previous fiscal year.)

Consequently, cash and cash equivalents as of March 31, 2026, increased by 35.8 billion yen to 416.0

billion yen compared with the balance at the end of the previous fiscal year.

(4) Basic policy regarding the allocation of profits and dividend payout plan for FY2025 and FY2026

Aiming to enhance its corporate value, the Company will strengthen investment in human resources, digital transformation (DX), technology, and enhancement of productivity and create sustainable profits to continue to fulfill the social mission of the construction industry where a decline in the number of engineers and workers is expected while giving top priority to the safety and quality. In addition, the Company will primarily carry out timely and proactive growth investments in fields where it can establish a competitive advantage and increase profits. From the point of improving capital efficiency, the Company will implement strategic shareholder returns by setting investment capital for each business according to the growth of the construction business and related businesses of the Group and set the necessary equity amount after examining the capital structure of each business.

For annual ordinary dividends, the Company has a policy that sets a dividend on equity ratio (DOE) of around 5%, with a priority on maintaining long-term stable dividends.

< Reference: Annual ordinary dividends based on DOE of around 5% >

DOE 5% = [(Equity as of the end of the previous fiscal year + Equity as of the end of the current fiscal year) / 2] × 5%

→ Target for total annual ordinary dividends (interim + year-end)

In addition to annual ordinary dividends, the Company will execute flexible shareholder returns by using various ways such as special dividends and purchase of treasury shares, according to necessary equity and profit status (comprehensive decision-making will be made in consideration of the profitability and financial status of the Group, price-to-book ratio, and other factors). The Company will review the DOE target in line with the medium- to long-term improvement of the profit level.

Based on this policy, the Company plans a year-end dividend of 47 yen per share for FY2025. As a result, together with the interim dividend of 41 yen per share, the annual ordinary dividend is planned to be 88 yen per share (DOE of 5.1%, consolidated payout ratio of 35.3%). Please refer to the “Notice Concerning Dividends of Surplus” separately released on May 13, 2026.

For FY2026, the Company plans to pay an interim and year-end dividend of 47 yen per share, a total annual dividend of 94 yen per share, based on the performance forecast for the relevant fiscal year calculated at a DOE of around 5%.

(5) Policy regarding cross-shareholdings

The Company owns cross-shareholdings to maintain and strengthen business relationships with the customers. The Company reviews the significance of owning shares in each company by regularly reporting to the Board of Directors on valuation gains/losses, and collective consideration of indicators of profitability such as capital cost and return on business from maintaining and strengthening the business relationship with a company. The Company verifies the economic rationale for owning shares over the medium and long term, and sells shares as needed when the business significance of owning the shares has weakened.

The Medium-Term Business Plan 2022 states that the Company will proceed further on reassessment of the significance of owning shares and overall investment efficiency for the Company. The Company has reduced cross-shareholdings, aiming to bring the ratio of cross-shareholdings to 20% or less of consolidated net assets by the end of March 2027.

The balance of cross-shareholdings as of March 31, 2026, accounted for 21.9% of consolidated net assets, down 0.7 percentage points from 22.6% from the end of March 2025. This was mainly due to the steady progress in selling cross-shareholdings and an increase in consolidated net assets from the recognition of profit attributable to owners of parent, despite an increase in the balance of cross-shareholdings due to a significant rise in the share prices of those holdings. The ratio of cross-shareholdings after reflection of agreed sale amount by the end of March 2027 to consolidated net assets was 17.5% and the Company will proceed with further sale of cross-shareholdings to achieve its target reducing such shares to 20% or less of consolidated net assets.

To enhance its corporate value, the Company will strengthen investments in human resources, DX, technology, investments to expand production capacity, and growth investments in fields where it can establish a competitive advantage. From the point of improving capital efficiency, the Company will implement strategic shareholder returns by setting the necessary equity amount according to the growth of the Group's businesses. Proceeds from the sale of cross-shareholdings will be used for these investments or shareholder returns.

<Changes in balance of cross-shareholdings and consolidated net asset ratio >

<Changes in cumulative amount sold from FY2021 including agreed sale amount (Consolidated) >

<Factors behind changes in the balance of cross-shareholdings (Consolidated) >

Balance and Changes	Amount
Balance as of March 31, 2025	¥273.5B
Amount sold during the period	(¥66.0B)
Increase due to higher stock prices	+¥79.8B
Other (purchase of unlisted stocks, etc.)	+¥1.4B
Balance as of March 31, 2026	¥288.8B
	Of which agreed sale amount: ¥58.3B

2. Basic Policy Regarding Selection of Accounting Standards

The Obayashi Group intends to prepare consolidated financial statements according to the Japanese generally accepted accounting principles and has taken into account the comparability of consolidated financial statements in different periods and comparisons between companies. The Obayashi Group also intends to respond appropriately to the adoption of IFRS upon collective consideration of conditions in Japan and overseas.

Note: Due to a change in accounting policy, results for the fiscal year ended March 31, 2025, have been re-presented retrospectively.

(5) Notes to the Consolidated Financial Statements

Uncertainties of Entity's Ability to Continue as Going Concern:

There are no applicable items.

Changes in Accounting Policies:

Change to the method for translating revenues and expenses of overseas subsidiaries and others

The revenues and expenses of the Company's overseas subsidiaries and others were previously translated into Japanese yen using the spot exchange rate at each subsidiary's reporting date. However, effective from the beginning of the current consolidated fiscal year, the Company has changed the method of translation to the average exchange rate during the reporting period.

This change was made in consideration of the increasing significance of net sales and profit or loss from overseas subsidiaries and others as the Company's overseas business expand, as well as recent exchange rate fluctuations. The new method aims to mitigate the impact of short-term exchange rate volatility on profit or loss during the applicable reporting period and to more appropriately reflect the performance of overseas subsidiaries and others in the consolidated financial statements over the course of the fiscal year.

This change in accounting policy has been applied retrospectively. Consolidated financial statements for the previous fiscal year have been restated to reflect this retrospective application.

As a result of the retrospective application, compared to the figures before the change, net sales in the previous fiscal year decreased by 29,336 million yen, operating profit decreased by 972 million yen, ordinary profit decreased by 1,147 million yen, and profit attributable to owners of parent decreased by 696 million yen and basic earnings per share (EPS) has decreased by 0.97 yen, respectively. In addition, retained earnings as of the end of the previous consolidated fiscal year decreased by 696 million yen, and foreign currency translation adjustments increased by an identical amount.

Note that the cumulative effect amount for consolidated fiscal years prior to the beginning of the previous consolidated fiscal year was immaterial, and therefore retrospective application for those periods was not performed.

Changes in Presentation:

Consolidated Statement of Income

"Foreign withholding tax," which was included in "Other" under non-operating expenses in the previous consolidated fiscal year, is separately presented in the current consolidated fiscal year due to their increased monetary importance. To reflect this change in presentation, the consolidated financial statements for the previous consolidated fiscal year have been reclassified.

As a result, 1,324 million yen presented as "Other" under non-operating expenses in the consolidated statement of income for the previous fiscal year has been reclassified as "Foreign withholding tax" of 59 million yen and "Other" of 1,265 million yen.

"Loss on retirement of non-current assets," which was included in "Other" under extraordinary loss in the previous consolidated fiscal year, is separately presented in the current consolidated fiscal year due to their increased monetary importance. To reflect this change in presentation, the consolidated financial statements for the previous consolidated fiscal year have been reclassified.

As a result, 994 million yen presented as "Other" under extraordinary loss in the consolidated statement of income for the previous fiscal year has been reclassified as "Loss on retirement of non-current assets" of 861 million yen and "Other" of 132 million yen.

"Loss on liquidation of business," which was separately presented under extraordinary loss in the previous consolidated fiscal year, is included in "Other" in the current consolidated fiscal year due to their decreased monetary importance. To reflect this change in presentation, the consolidated financial statements for the previous consolidated fiscal year have been reclassified.

As a result, 3,849 million yen presented as "Loss on liquidation of business" under extraordinary loss in the consolidated statement of income for the previous fiscal year has been reclassified as "Other."

Additional Information:**Performance-linked stock remuneration system for directors and executive officers****(a) Transaction Summary**

The Company has introduced a performance-linked stock remuneration system as an incentive plan for its directors and executive officers (excluding Independent Directors and overseas residents; the "Directors") since the fiscal year ended March 31, 2016. The plan is highly transparent and objective and closely linked with the Company's performance for the Directors, with the goal of increasing awareness of the importance of contributing to further enhancing the corporate value and performance over the medium to long term.

The Company's shares are acquired through the Board Incentive Plan Trust (the "BIP Trust") and awarded to the Directors in accordance with performance targets achieved.

(b) The Company's own stock in the BIP Trust

The Company's own stock in the BIP Trust is recorded in "Treasury shares" under net assets based on the book value in the BIP Trust (excluding ancillary expenses). The book value and the number of these treasury shares in the BIP Trust as of March 31, 2025 decreased from 1,067 million yen and 978,650 shares, to 898 million yen and 814,114 shares as of March 31, 2026.

Stock-based incentive plan for managers

The Company resolved, at a meeting of the Board of Directors held on March 27, 2026, to introduce a stock-based incentive plan (the "Plan") for employees in managerial positions who meet certain requirements (the "Eligible Managers"). The Company has already introduced a performance-linked stock remuneration system for its Directors and executive officers (excluding Independent Directors and overseas residents). Through the introduction of the Plan, the Company encourages management and the Eligible Managers to work together as one toward the enhancement of sustainable corporate value. In addition, the Plan positions the Company's growth not as something to be "enjoyed as a result," but as something to be "proactively created," and institutionally supports the heightened roles and responsibilities of Eligible Managers who are engaged in initiatives to enhance corporate value.

(a) Transaction Summary

In the Plan, the Company has adopted a structure utilizing a Stock-Granting Employee Stock Ownership Plan Trust (the "ESOP Trust"). The Company will establish the ESOP Trust by contributing funds for the acquisition of the Company's shares, designating Eligible Managers who meet prescribed requirements as beneficiaries. The ESOP Trust will purchase the number of Company shares expected to be granted to the Eligible Managers from the stock market in advance, in accordance with the pre-determined stock grant regulations. Thereafter, in accordance with the stock grant regulations, the ESOP Trust will deliver the Company's shares and/or pay cash equivalent to the proceeds from the sale of such shares, depending on factors such as the Company's performance and the work status of the Eligible Managers during the trust period.

(b) The Company's own stock in the ESOP Trust

The ESOP Trust is scheduled to commence in July 2026, and accordingly, there are no applicable matters as of the end of the fiscal year ended March 31, 2026.

Consolidated Segment Information:
Disclosure of sales, profit (loss), asset, liability, and other items for each reportable segment
For the Fiscal Year Ended March 31, 2025
(Yen in millions)

	Reporting segment						Others *1	Total

Segment sales	1,165,556	509,513	443,023	336,000	107,637	2,561,731	84,104	2,645,836
<u>Operating profit</u>								
Operating profit from sales to external customers *2	104,088	11,999	40,925	14,769	19,978	191,761	2,917	194,678
Transactions with other segments	(473)	(583)	(275)	469	(54)	(918)	(72)	(990)
Segment profit	103,615	11,415	40,649	15,238	19,924	190,843	2,844	193,687

*1 Businesses that cannot be classified into the reportable segments are shown as others. These include PFI (Private Finance Initiative), renewable energy, finance and other businesses.

*2 Operating profit from sales to external customers was computed by subtracting transactions with other segments. The total operating profit from sales to external customers equals to operating profit as shown in the consolidated statement of income.

*3 Assets are not allocated to reportable segments.

*4 As described in "Changes in Accounting Policies," the revenues and expenses of the Company's overseas subsidiaries and others were previously translated into Japanese yen using the spot exchange rate at each subsidiary's reporting date. However, effective from the beginning of the current consolidated fiscal year, the Company has changed the method of translation to the average exchange rate during the reporting period.

As a result of the retrospective application, compared to the figures before the change, segment sales in the previous fiscal year decreased by 20,898 million yen in the overseas building construction, 8,218 million yen in the overseas civil engineering, and 219 million yen in the real estate, while segment profit decreased by 632 million yen in the overseas building construction, 270 million yen in the overseas civil engineering, and 67 million yen in the real estate, respectively.

Per Share Information:

(Yen)

	Fiscal Year Ended March 31, 2025	Fiscal Year Ended March 31, 2026
Net assets per share (BPS)	1,628.88	1,830.64
Basic earnings per share (EPS)	202.91	249.42

Note:

1. Diluted earnings per share is not presented because the Company has no potentially dilutive shares.

2. The basis for calculating net assets per share (BPS)

		As of March 31, 2025	As of March 31, 2026
Net assets	(Yen in millions)	1,210,201	1,316,466
Amounts deducted from net assets	(Yen in millions)	51,956	58,041
[Non-controlling interests]	(Yen in millions)	51,956	58,041
Net assets applicable to ordinary shares	(Yen in millions)	1,158,245	1,258,424
Number of ordinary shares at the year-end	(Thousands of shares)	711,070	687,421

Shares in the BIP Trust are included in "Treasury shares" which are deducted from the number of ordinary shares in calculating net assets per share. The numbers of the treasury shares as of March 31, 2025 and March 31, 2026 are 10,439 thousand and 4,389 thousand, including 978 thousand and 814 thousand shares in the BIP Trust, respectively.

3. The basis for calculating basic earnings per share (EPS)

		Fiscal Year Ended March 31, 2025	Fiscal Year Ended March 31, 2026
Profit attributable to owners of parent	(Yen in millions)	145,355	173,759
Profit attributable to owners of parent not attributable to shareholders of ordinary shares	(Yen in millions)	—	—
Profit attributable to owners of parent attributable to shareholders of ordinary shares	(Yen in millions)	145,355	173,759
Average number of ordinary shares issued and outstanding during the fiscal year	(Thousands of shares)	716,367	696,649

Shares in the BIP Trust are included in "Treasury shares" which are deducted from the number of ordinary shares in calculating basic earnings per share. The average numbers of shares and outstanding during the years ended March 31, 2025 and March 31, 2026 are 5,142 thousand and 12,407 thousand, including 956 thousand and 864 thousand shares in the BIP Trust, respectively.

Significant Subsequent Events:

Conversion to an Equity-method Affiliate through Acquisition of Shares and Establishment of a Subsidiary

The Company, at a meeting of the Board of Directors held on May 13, 2026, resolved to acquire shares of PT JTD JAYA PRATAMA (hereinafter referred to as "JTDJP"), which is engaged in the toll road concession business in Indonesia, and to appoint directors to JTDJP, thereby making it an affiliate of the Company.

In addition, for the purpose of acquiring shares of JTDJP, the Company resolved to establish PT Obayashi Concession Indonesia (hereinafter referred to as "OCI"), a local subsidiary, through joint investment by the Company and PT. Jaya Obayashi, an overseas subsidiary of the Company. The total amount of investment in OCI is equivalent to 10% or more of the Company's capital, and therefore OCI will fall under the category of a specified subsidiary of the Company.

1. Purpose of Acquisition of Shares of JTDJP and Establishment of OCI

The Obayashi Group has defined the direction of its sustainable growth strategy as "establishing a Group-wide business structure centered on the domestic construction business and in which other businesses generate performance equal to or greater than that of the domestic construction business," and aims to build a future Group business structure to achieve this goal.

In the new business domains, based on one of the three pillars of the Obayashi Group Medium-Term Business Plan 2022's fundamental strategies, expansion of the business portfolio for sustainable growth, the Obayashi Group is focused on market areas with high growth potential by addressing social issues and leveraging its core technologies and promoted initiatives such as PPPs and concessions.

JTDJP, whose shares the Company will acquire, holds the concession rights for an approximately 31-kilometer toll road (total project cost of approximately JPY 213 billion), crossing central Jakarta, the capital of Indonesia, which faces a social issue of chronic traffic congestion. Although the toll road is currently open only in sections, demand is expected to increase and help mitigate severe congestion on existing local roads once land acquisition by the Indonesian government is done and the entire route is completed.

In addition, the Obayashi Group intends to share with JTDJP the expertise that it has cultivated through its construction business in Japan and overseas, thereby contributing to the further growth of JTDJP's concession business.

By further promoting concession businesses, the Obayashi Group will strengthen its earnings base while contributing to the resolution of social issues.

2. Overview of JTDJP subject to being an affiliate of the Company

(1) Name	PT JTD JAYA PRATAMA	
(2) Location	Special Capital Region of Jakarta, Indonesia	
(3) Name and Title of Representative	Sutopo Kristanto	
	President Director
