2 Qualitative Information

(1) Overview of consolidated business results

Consolidated net sales for the first three months of the fiscal year under review (from April 1 to June 30, 2020) were 415.1 billion yen, a decrease of 31.6 billion yen (7.1%) from the first quarter of the previous fiscal year. The decrease was mainly due to three main reasons for the decline in net sales and each profit category in the forecasts for fiscal year ending March 31, 2021 compared to the previous fiscal year; 1) Comparison with the unusually large numbers during the same period of the previous fiscal year, during which multiple large projects were completed in the domestic construction business, 2) a decline in sales posted during the first three months of the fiscal year under review because construction had just begun on many projects in the domestic building construction business, and 3) the impact from suspension of some construction projects in the overseas building construction business due to the spread of the novel coronavirus. This resulted in operating income of 19.7 billion yen, a decrease of 5.6 billion yen (22.3%) from the same period in the previous fiscal year. Ordinary income was 22.4 billion yen, a decrease of 5.6 billion yen (20.3%) year-on-year, and profit attributable to owners of parent was 22.7 billion yen, an increase of 0.02 billion yen (0.1%) year-on-year.

(2) Overview of consolidated financial position

Total assets as of June 30, 2020 decreased by 11.6 billion yen (0.5%) compared with the balance at the end of the previous fiscal year (March 31, 2020), to 2,218.6 billion yen. This was mainly due to a decrease in trade receivables related to construction contracts, which are the sum of "Notes and accounts receivable from completed construction contracts and other" and "Electronically recorded monetary claims," which exceeded an increase in "Cash and deposits."

Total liabilities as of June 30, 2020 decreased by 25.8 billion yen (1.9%) compared with the balance at the end of the previous fiscal year, to 1,353.9 billion yen. This was mainly due to a decrease in trade payables related to construction costs, which are the sum of "Notes and accounts payable for construction contracts and other" and "Electronically recorded obligations," which exceeded increases in "Short-term loans payable", "Long-term loans payable", and other interest-bearing debt. The balance of interest-bearing debt as of June 30, 2020 increased by 37.8 billion yen (15.2%) compared with the balance at the end of the previous fiscal year (March 31, 2020), to 286.4 billion yen.

Total net assets as of June 30, 2020 increased by 14.1 billion yen (1.7%) compared with the balance at the end of the previous fiscal year, to 864.6 billion yen. This was mainly due to an increase in "Retained earnings" from the recognition of profit attributable to owners of parent.

As a result, the equity ratio as of June 30, 2020 was 37.6%, up 0.9 percentage points from the end of the previous fiscal year.

(3) Consolidated forecasts for fiscal year ending March 31, 2021

The consolidated forecasts for the full fiscal year (ending March 31, 2021) were not determined when the results for fiscal year ended March 31, 2020 were disclosed on May 15, 2020 because the Company was in the process of verifying the impact of the spread of the novel coronavirus (COVID-19) on business performance. We decided not to disclose forecasts at that time due to the difficulty of calculating reasonable forecasts. Nearly all construction was subsequently resumed with the exception of some overseas projects, making it possible to reasonably calculate the impact from the suspension of construction and other business up to that point. We are, therefore, disclosing the following performance forecasts, which were calculated based on information available at the present time.

	Orders Received	Net Sales	Operating Income	Ordinary Income	(Yen in millions, %) Profit Attributable to Owners of Parent
Fiscal year ending March 31, 2021 (Forecast) (A)	2,080,000	1,860,000	119,000	126,000	94,000
Fiscal year ended March 31, 2020 (B)	2,240,001	2,073,043	152,871	159,005	113,093
Change (A-B)	(160,001)	(213,043)	(33,871)	(33,005)	(19,093)
YoY Change (%)	(7.1)	(10.3)	(22.2)	(20.8)	(16.9)

There are three main reasons for the decline in net sales and each profit category in the forecasts for fiscal year ending March 31, 2021 compared to the previous fiscal year; 1) Comparison with the unusually large numbers during the same period of the previous fiscal year, during which multiple large projects were completed in the domestic construction business, 2) a decline in sales posted during the first three months of the fiscal year under review because construction had just begun on many projects in the domestic building construction business, and 3) the impact from suspension of some construction projects in the overseas building construction business due to the spread of the novel coronavirus.

(4) Response to novel coronavirus

The Company formulated the Basic Plan of Action to Prevent the Spread of the Novel Coronavirus in May 2020, based on guidelines formulated by industry organizations. A version for construction sites, Guideline of Action to Prevent the Spread of the Novel Coronavirus at Construction Sites, was formulated in June 2020.

Based on these plans of action, we are working to maintain business activities and achieve results on par with the previous level, as we take steps to establish working environments that avoid the three crowded conditions of "close contacts, crowded places and closed spaces" and other steps to prevent the spread of novel coronavirus infections and to minimize the impact when someone is infected.

The Company has also prepared for unforeseen circumstances by securing a higher level of liquidity than normal and establishing a system for agile supply of funds to Group companies in Japan and overseas.

The Obayashi Group will continue to place the highest priority on protecting the health and lives of and ensuring safe living conditions for all involved, and will implement additional safety measures as needed in the future as we work in earnest to meet the construction demand needed to establish public infrastructure and ensure the continuity of private-sector businesses.
