Reference Documents for the 121st Ordinary General Meeting of Shareholders

Proposals and Reference Issues

Proposal 1: Appropriation of Surplus

Aiming to enhance its corporate value, the Company will strengthen investment in human resources, digital transformation (DX), technology, and enhancement of productivity and create sustainable profits to continue to fulfill the social mission of the construction industry where a decline in the number of engineers and workers is expected while giving top priority to the safety and quality. In addition, the Company will primarily carry out timely and proactive growth investments in fields where it can establish a competitive advantage and increase profits. From the point of improving capital efficiency, the Company will implement strategic shareholder returns by setting investment capital for each business according to the growth of the construction business and related businesses of the Obayashi Group (hereinafter referred to as the “Group”) and set the necessary equity amount after examining the capital structure of each business.

For annual ordinary dividends, the Company established a policy that sets a dividend on equity ratio (DOE) of around 5%, with a priority on maintaining long-term stable dividends.

< Reference: Annual ordinary dividends based on DOE of around 5% >

$\text{DOE } 5\% = [(\text{Equity as of the end of the previous fiscal year} + \text{Equity as of the end of the current fiscal year})/2] \times 5\%$

→Target for total annual ordinary dividends (interim + year-end)

Based on this policy, the Company proposes a year-end dividend for the fiscal year under review of 41 yen per share. In addition to the interim dividend of 40 yen, the annual ordinary dividend would amount to 81 yen per share, an increase of 6 yen year-on-year (DOE of 5.0% and a consolidated dividend payout ratio of 39.7%).

Year-end dividends

1. Type of dividend property: Cash
2. Appropriation of dividends to shareholders and total amount of dividends
Dividend per share: 41 yen
Total amount of dividends: 29,194,010,230 yen
3. Effective date: June 27, 2025

Proposal 2: Election of Nine (9) Directors

Reduction on cross-shareholdings

The Company owns cross-shareholdings to maintain and strengthen business relationships with the customers. The Company reviews the significance of owning shares in each company by regularly reporting to the Board of Directors on valuation gains/losses, and collective consideration of indicators of profitability such as capital cost and return on business from maintaining and strengthening the business relationship with a company. The Company verifies the economic rationale for owning shares over the medium and long term, and sells shares as needed when the business significance of owning the shares has weakened.

The Medium-Term Business Plan 2022 states that the Company will proceed further on reassessment of the significance of owning shares and overall investment efficiency for the Company. The Company has reduced cross-shareholdings, aiming to bring the ratio of cross-shareholdings to 20% or less of consolidated net assets by the end of March 2027.

The balance of cross-shareholdings as of March 31, 2025, accounted for 22.6% of consolidated net assets, down 11.2 percentage points from 33.8% at the end of the previous fiscal year. This is mainly due to the progress in selling cross-shareholdings and the decline in the share prices of those holdings. The ratio of cross-shareholdings including the agreed sale amount by the end of March 2027 to consolidated net assets was 15.8%, and the Company will proceed with further sale of cross-shareholdings to achieve its target reducing such shares to 20% or less of consolidated net assets.

To enhance its corporate value, the Company will strengthen investments in human resources, DX, technology, investments to expand production capacity, and growth investments in fields where it can establish a competitive advantage. From the point of improving capital efficiency, the Company will implement strategic shareholder returns by setting the necessary equity amount according to the growth of the Group's businesses. Proceeds from the sale of cross-shareholdings will be used for these investments or shareholder returns.
